Professional Experience

Major League Hacking | Multiple Locations

Coach, Aug. 2026 – Present

Represent Major League Hacking at collegiate hackathons across the world, mentoring student hackers and supporting event organizers to ensure a smooth, high-quality hackathon experience.

- **Hacker Mentorship & Technical Support:** Provide hands-on debugging help and technical guidance to student participants throughout hackathon weekends, supporting hackers of all skill levels from first-timers to experienced builders.
- **Event Operations & Organizer Support:** Partner with student hackathon organizers on-site to keep judging, logistics, and event flow running smoothly, stepping in wherever support is needed to deliver a successful event.
- **Community Representation & Outreach:** Serve as an ambassador for MLH's mission at events, building relationships with organizers and hackers that strengthen MLH's presence within the collegiate hackathon community.

Computer Science Association HCC | Houston, TX

President, May 2026 - Present

Vice President, Sept. 2025 – May 2026

Develop strategic initiatives and organizational leadership within the computer science academic community. Spearhead membership growth and enhanced educational programming, driving association engagement and professional development opportunities.

- **Strategic Planning & Leadership:** Develop comprehensive organizational strategies to expand membership base and strengthen community partnerships, resulting in increased student engagement and professional networking opportunities.
- **Program Development & Management:** Design and implement educational workshops, hackathons (HackHCC, 100+ attendees), and industry speaker series, creating valuable learning experiences that bridge academic coursework with real-world applications.
- **Stakeholder Relations & Outreach:** Cultivate relationships with industry professionals, faculty advisors, and student organizations to establish mentorship programs and internship placement opportunities, enhancing career prospects for association members.

Dakota Enterprises | Houston, TX

Assistant Property Manager, Sep. 2022 – Apr. 2023

Led the implementation and integration of advanced property management systems, streamlining operations and significantly reducing eviction rates. Skillfully managed a portfolio of 258 units, fostering a positive community atmosphere and enhancing the overall resident experience.

- Implemented, integrated, and managed multiple property systems including (OneSite, Entrata, etc.)
- Reduced evictions from monthly average of 12+ to only 2 via implementation of rigorous workflow reform.
- Managed 258 units and cultivated the growth of the resident experience.

Projects & Awards

University of Houston Dean's Excellence Award | Daniels Scholar | 2026 Hackcon Scholarship | Boy's Nation Finalist

Clarity AI – Won 1st place at CodeRed:Astra by developing a multi-tier educational platform designed to bridge the gap between teachers and students by providing an anonymous channel for students to express confusion points during or after class.

US County Health Analysis – Developed a full-stack data analytics project analyzing county-level public health trends across the United States.

Machine Learning ITAI 1371 – Projects from my Introduction to ML course at HCC. Notebooks cover the full workflow — EDA, feature engineering, regression and classification, ensemble methods, unsupervised learning, and model evaluation.
